Oven Alexa Voice Commands

Voice commands that can be used with Alexa and your Home Connect appliances Oven

"Alexa, start Home Connect oven"

"Alexa, tell Home Connect oven to start".

Alexa starts the dialogue right away, guiding you through all the necessary steps.

Once you have become more familiar with this skill, try saying something like:

"Alexa, tell Home Connect oven to start top-bottom heating at 180 degrees for 10 minutes"

This shortcut lets you perform the settings quickly.

To stop the oven, say: "Alexa, tell Home Connect oven to turn off".

Voice commands that can be used with Alexa and your Home Connect appliances Oven

If you wish to change the heating mode, say: "Alexa, tell Home Connect oven to set hot air".

You can change the temperature as follows: "Alexa, tell Home Connect oven to increase the temperature by 10 degrees" or "Alexa, tell Home Connect oven to set 120 degrees".

To change the cooking time, you can say the following, for example:

"Alexa, tell Home Connect oven to extend the cooking time by 10 minutes" or "Alexa, tell Home Connect oven to set 1 hour and 15 minutes".

To request the status, say: "Alexa, ask Home Connect oven when my dinner will be ready" or "Alexa, ask Home Connect oven which heating mode is set" or "Alexa, ask Home Connect oven for its status".

Dishwasher Alexa Voice Commands

Voice commands that can be used with Alexa and your Home Connect appliances Dishwasher

"Alexa, start Home Connect dishwasher"

"Alexa, tell Home Connect dishwasher to start".

Alexa starts the dialogue right away, guiding you through all the necessary steps.

If you are already more familiar with the skill, try saying something more advanced such as:

"Alexa, start Home Connect dishwasher with Eco 50".

This shortcut lets you select your favourite wash program quickly and directly in just one sentence.

To query how long the wash program has left to go, say: "Alexa, ask Home Connect dishwasher for the remaining time"

Washing Machine Alexa Voice Commands

Voice commands that can be used with Alexa and your Home Connect appliances

Washing machine

"Alexa, start Home Connect washing machine"

"Alexa, tell Home Connect washing machine to start".

Alexa starts the dialogue right away, guiding you through all the necessary steps.

Once you have become more familiar with this skill, try saying something like:

"Alexa, start Home Connect washing machine for cottons at 30 degrees".

This shortcut lets you perform the settings quickly.

Voice commands that can be used with Alexa and your Home Connect appliances

Washing machine

To stop the washing machine, say: "Alexa, tell Home Connect washing machine to stop" (Note: Depending on the run time, you may have to manually set the "Rinse" program so that you can open the door)

To request the status, say: "Alexa, ask Home Connect washing machine when the laundry will be ready." or "Alexa, ask Home Connect washing machine which program is set" or "Alexa, ask Home Connect washing machine for its status".

Coffee Machine Alexa Voice Commands

Voice commands that can be used with Alexa and your Home Connect appliances

Coffee Machine

"Alexa, start Home Connect coffee machine"

"Alexa, tell Home Connect coffee machine to start".

Alexa starts the dialogue right away, guiding you through all the necessary steps.

If you are already more familiar with the skill, try saying something more advanced such as:

"Alexa, tell Home Connect coffee machine to make a cappuccino".

This shortcut lets you select your favourite coffee quickly and directly in just one sentence. To do this, the coffee machine uses the program settings last used for filling capacity and strength.

Voice commands that can be used with Alexa and your Home Connect appliances

Coffee Machine

If you have a personal coffee request, try to name all the values directly:

"Alexa, tell Home Connect coffee machine to make a large, extra strong cappuccino".

If Alexa hasn't understood all the words correctly, the assistant will automatically help you to achieve your aim.

It may be that your coffee machine is in standby mode at the time the request is sent. In this case, the coffee machine will switch on automatically and start the rinse cycle. Please wait a few minutes until the cycle has finished and start again.

Cooker Hoods Alexa Voice Commands

Voice commands that can be used with Alexa and your Home Connect appliances

Cooker Hood

Set Fan Level | Alexa, tell <u>my hood</u> to use fan level 2

Turn On | Alexa, tell <u>my hood</u> to turn on (This will start the hood on a default level)

Activate Automatic Mode | Alexa, tell my hood to activate

Turn Off | Alexa, tell

Activate Automatic Mode | Alexa,
