We recognise that we have a vital role in helping to protect the local and global environment and are proud to use a wide range of sustainable products throughout the production process. These include timbers that have been FSC certified or Pan European approved, or have originated from managed forests.

Your 20 Year Quality Cabinet Guarantee

Mereway Kitchens specialise in rigid cabinets made from 19mm high density MFC.

Units are of traditional 'glue and dowel' construction and are produced using the latest computer controlled machinery throughout the manufacturing process. The outstanding quality of our units is recognised throughout the industry and we are therefore proud to offer a reassuring 20 year guarantee on our cabinets.

Please see a summary of our guarantee of individual items listed below.

20 years - Cabinet, drawer boxes, door hinge & drawer runners

LASTRA HANDLE

The Lastra slab door can be used with an extensive range of handles.

Please see our extensive range of handles on pages 96 and 97.

FUTURA TRUE HANDLELESS

The Futura door creates a true handleless look by using a handleless profile available in various contrasting finishes.

SEGRETO INTEGRATED HANDLE

The Segreto door incorporates a clever 'J' handle to create a visually handleless look and feel.

C-LINE This opening system utilises middle 'C' profiles to open drawers and touch to open doors.

L-LINE This opening system utilises a horizontal top 'L' and middle 'C' profile to open doors

Q-LINE TRUE HANDLELESS & TOUCH

Q-Line offers the choice of two different handleless base unit designs. The two base unit styles 'L' or 'C' line can be mixed with both vertical handleless 'Profile' tall units or 'Touch' opening tall units providing a wide range of possibilities.

Over the next few pages, let us inspire you with some ideas by showing you some of our favourite kitchen presentations where colours, textures and door styles combine to create a truly individual contemporary kitchen.

Durability

The laminate surfaces are designed to withstand the stresses & strains of daily life, due to their high resistance against scratches and impact. Compared to real timber, our worktops are less prone to fading and changes after being exposed to direct sunlight. They are incredibly easy to look after, and unlike solid wood or stone surfaces, require minimal maintenance or repair.

Stain Resistance

To remove those hard stains such as red wine and coffee, simply use a damp cloth & mild surface cleaner to easily remove in minutes.

Impact Resistance

Every now and then, items stored away in cupboards can fall onto the surfaces. Our high density worktops are designed to withstand the impact of such items.

Heat Resistance

UrbanTop worktops have been rigorously tested against surface temperatures of up to 180 degrees and are designed to cope with the daily demands of a busy kitchen. We do however recommend the use of heat deflector plates above all built under ovens and dishwashers to protect the underside of the worktop surface.

Lightfastness

Unlike real timber, our laminate worktops are significantly less prone to fading and changes in colour caused from exposure to sun light.

Butchers Block

To create an authentic 'real wood' look UrbanTop have developed an 'End Grain' effect edging we call Butchers Block that is applied to the worktops at both ends giving the impression of real timber.

5 Year Guarantee

We're so confident that you won't be disappointed with the quality of our worktops that they come with a 5 year guarantee!
