Accessories

1	RS60RDWX1	Wine Cooler	50.0%
---	-----------	-------------	-------

This stylish stainless steel Fisher & Paykel Wine Cabinet provides a stable temperature and humidity environment for your wine collection no matter what wine variety or colour.

32 bottle capacity

Dual zone temperature

Brushed metal handle

Maintaining the perfect environment for your red and white wines is easy with dual zones in your wine cabinet. The control panel gives you the ability to set each zone to between 5°C and 20°C and to adjust LED lighting and fans.

our wine collection is always on display through UV tempered glass and LED lighting. Bottles nestle on stylish oak slide out shelves and a top shelf tilts so you can showcase your favourite wines.

The fan helps circulate air inside your wine cabinet while oak shelves and a low vibration compressor ensure optimal storage. The UV tempered glass door reduces the risk of external light affecting your wine.
