There are many reasons to choose one of our bedrooms.

Our bedrooms and home office furniture are simple to buy and easy to fit. Take a closer look and you'll find many more reasons to choose from us over any other.

...here are just seven of them.

1

Our fitted wardrobe doors have five hinges where others only use three or four.

2

While other manufacturers drill row upon row of holes filled with plastic caps, we only drill holes where they are needed meaning our wardrobes are great looking on the inside as well.

3

Our furniture is available in ten widths that extend your options. That's far more than anyone else and means every inch of space can be used.

4

We have 15 cabinet finishes that match the doors and drawers. They look as good on the inside as they do on the outside, which is a good sign of a quality manufacturer.

5

Robe fitting look. Our robe units have been carefully designed to offer either a contemporary style using either panelling, or infill panels fitted flush with door fronts, or a traditional style using cornice with a set back ceiling scribing panel.

6

Internal drawers extend as wide as possible in the unit and use soft close runners and real timber drawer boxes as standard. Why scrimp on quality inside the wardrobe?

7

We offer a selection of bespoke sliders in a variety of choices to truly personalise any space.

To help you choose, please use our simple style & value guide.

Ava

Representing the best value for money these contemporary bedrooms are constructed using quality doors and drawers that are edged using a tough durable ABS, making them the perfect choice for those wanting a durable and stylish bedroom.

Elise

Continuing the contemporary theme these bedrooms are a little different. It's the same slab door used in the Ava collection, but this time it is entirely wrapped in a hard wearing foil that creates a seamless edge to all the doors and drawers.

Orla

Another contemporary themed bedroom with its innovative integral handle design creates a sleek and sophisticated statement.

Ava Plus

Again, contemporary but these bedrooms have a very modern look to them thanks to the use of a luxurious high gloss finish that is exceptionally smooth to the touch. If you want that expensive European look without the expense, then these are the bedrooms for you.

Georgia

Now we move onto bedrooms for those seeking a more traditional look. Created using elegant panelled doors based on the ever popular shaker design, these are expertly foil enveloped to create a soft matt finish in a choice of colours.

Luna

The most traditional of all the bedrooms is Luna. An elegant and stylish Mock In-Frame that creates a truly luxury space for you to call your own.

Sofia

A classic but contemporary look thanks to the use of panelled shaker doors without feature lines and plinth. If you're after a truly different shaker look, then this style is for you.

Home Office

Things have certainly changed a lot including the way in which we work. You can now upgrade from the dining room table to create a more practical space within the home, which will match our Ava, Elise, Orla, Luna Sofia or Ava Plus ranges.
