# *The New* NEFF **COLLECTION**

BUILT IN APPLIANCES CATALOGUE 2023

# *Open for* **CHARACTER**

the NEFF Collection

## Introducing Flex Design

### Your kitchen, your taste, your colour!

Make your kitchen truly yours with handles and side trims in four distinctive colours, you can personalise your kitchen to suit you. Choose from Brushed Bronze, Deep Black, Metallic Silver and Anthracite Grey.

The Flex Design trim is available across our Neff Collection range of ovens, compacts, warming drawers, coffee machine and selected induction hobs.

### Our first kitchen series that's as unique as you are.

This new range of NEFF appliances are a unique series of appliances that offer you distinctive customisation options to create a kitchen personalised to you.

# Create your PERFECT KITCHEN

with a NEFF Collection partner

## NEFF Kitchen Specialists

This range of appliances, in the new NEFF Collection, is available through our NEFF elite retailers. With specialist expertise and knowledge in bespoke kitchen design and our NEFF brand and product range, they'll be on hand to help you create your perfect kitchen. Their teams of trusted designers can match the best kitchen appliances to suit your cooking style and kitchen design. But why stop there? With the NEFF Collection range being available in four unique colours, you can even match your appliances to your kitchen furniture. You can match a dark painted black kitchen with our NEFF Deep Black trims or if Bronze & mixed metals are your style you can add the Brushed Bronze accent and match everything to cabinets, worktops & trims. Scan here to find out more.

NEFF  
COLLECTION

**5**  
**YEARS**  
WARRANTY

## *Order with peace of mind.*

All NEFF Collection appliances come with 5 Years Warranty.

All NEFF appliances in the NEFF Collection range have a five year manufacturer's warranty as standard to protect against any manufacturing and material faults and defects during this warranty period. For further information about this warranty, see our website for details.

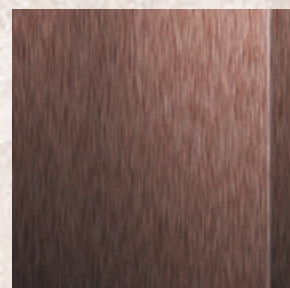

# Open for PERSONALISED STYLE

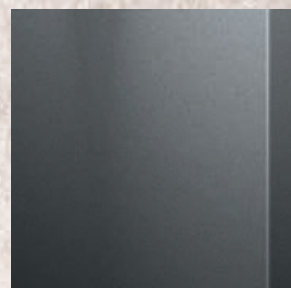

## Flex Trim finishes

**It's details that make us special.  
Individual. Unmistakable.**

We believe your kitchen should be too. That's why we've made it possible to personalise your appliances with the new NEFF Flex Design: interchangeable design elements such as handles and side trims in four distinctive colours for your oven, hood, hob, coffee machine and even your Twist Pad Flex®. Choose from Deep Black, Brushed Bronze, Metallic Silver or Anthracite Grey trim. And because kitchens grow and tastes change, the choice is also flexible. Simply swap out the design elements to suit your new style giving each appliance a lifetime of great taste.

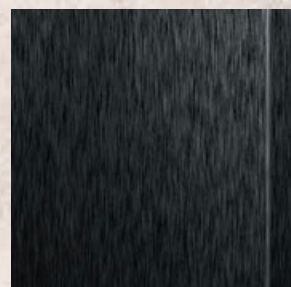

Brushed Bronze

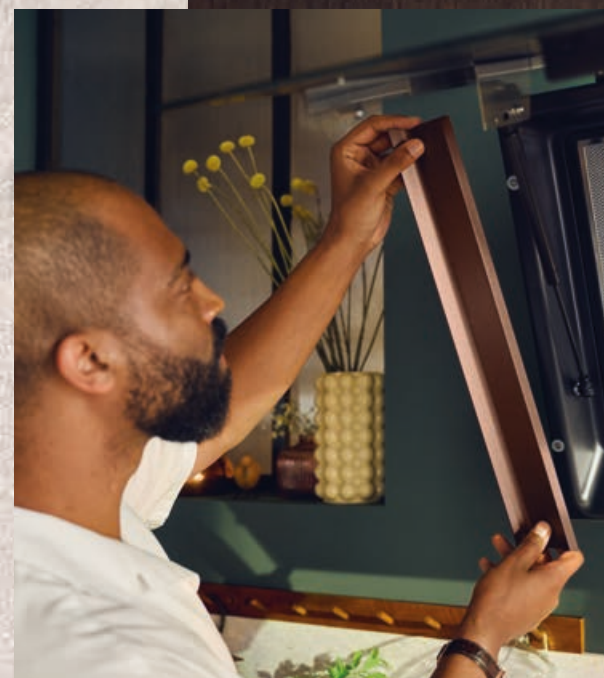

Anthracite Grey

Metallic Silver

Deep Black

***With Flex Design change is really easy: you can simply swap out design elements on your own, anytime you want to fit your new style.***

## Easy to install

The trims on the Flex Design range are really easy to change so if at any time you want to update your kitchen look you can without replacing your appliances - they simply clip securely into place until you want a change.

Throughout this brochure we have used the Brushed Bronze images – follow this link to our webpage to see the other colours brought to life online.

# Open for CREATIVE FREEDOM

## Seamless Combination with Flex Design

**Choose a finishing touch to  
match your kitchen's aesthetic  
seamlessly – now and later!**

Open for Your Cooking Style - This range of Flex Design ovens in this new NEFF Collection allows you to build your cooking style just how you want to. If you want a steam oven on top of a pyro oven or prefer two compact ovens stacked, you can do this - the opportunities are endless. This range allows for maximum flexibility in designing your combined range of cooking appliances and you can seamlessly combine these with the cleverly designed strips to make the ovens look like one integrated unit.

*Watch your  
favourite  
appliances blend  
together seamlessly.*

## Open for INTUITION

### Twist Pad Flex®

Cooking is a sensual activity. The cook must be able to feel it all – from the texture of the food to the control over their instruments. Intuitively and instinctively to always stay in touch with what you are doing, we have now found a way for you to unleash your flow freely on multiple appliances: the magnetic Twist Pad Flex® ensures a precise and easy operation on your hob – but also on your oven and coffee machine. Just snap it on intuitively\*.

Activate your desired cooking zone on your hob by tilting and choose your power level by rotating this genius button. The light around the Twist Pad Flex® indicates the status of your cooking zone, whether it is heating or not. So whether brewing a cup of coffee or baking a birthday cake, the Twist Pad Flex® is ready to dial your appliance up a notch, so that you can control your appliances reliably and comfortably.

### Flex Control

Your appliances should work around the way you cook - not the other way around. With Flex Control, your appliances adjust to your personal preferences.

Whether you swipe and tap the TFT Touch Control or guide a Twist Pad Flex®\* into place, the high resolution interface adapts automatically. Full Touch 3 display featuring the largest 6.8" Full Touch TFT display offers the flexibility to operate the appliance with the Twist Pad Flex®\* enabling ultimate flexibility and complete control while cooking the way you like. It also works on the coffee machine or you can operate this and all our appliances using the Home Connect app to make your favourite coffee. Operate your coffee machine intuitively with the Twist Pad Flex®\*.

\*Twist Pad Flex® sold separately for ovens and built-in coffee machine.

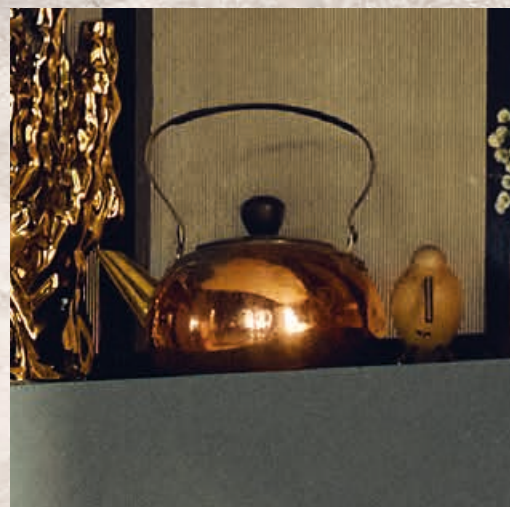

# Open for FLEXIBILITY

## Our first kitchen series that's as unique as you are.

At NEFF, we believe that openness is the key to everything creative. It's a mindset that we share with other open-minded and free-spirited hobby chefs and food lovers all around the world. People with an insatiable appetite for the extraordinary, and a constant craving for the unconventional – in and outside the kitchen. People that would always choose individuality over conformity.

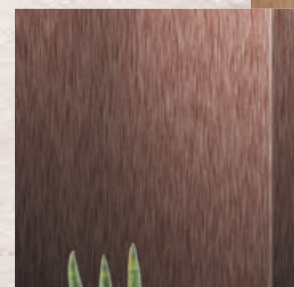

- 1 Seamlessly combine a Compact Oven and a Single Oven with our 105cm Seamless Combination trim.
- 2 The new NEFF Flex Design trim allows you to add the accent trim to the Angled Glass Chimney hood\*, extending the accent colour across the kitchen.
- 3 Introducing the new Twist Pad Flex® to accent the colour on the Induction Hob control. On selected models the Twist Pad Flex® can also be used to control the oven.
- 4 The NEFF Flex trim can also be added as a side strip to the Induction Hob to further complement the range.

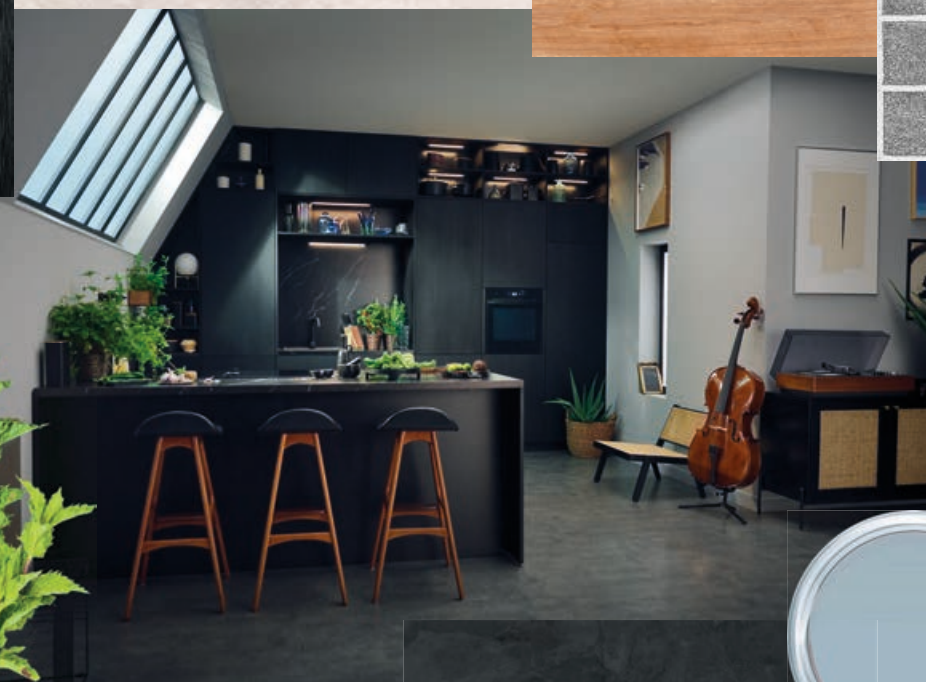

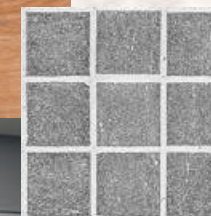

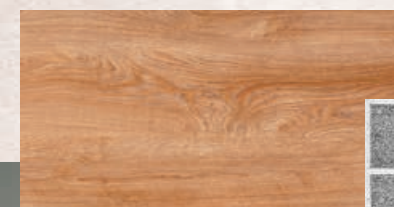

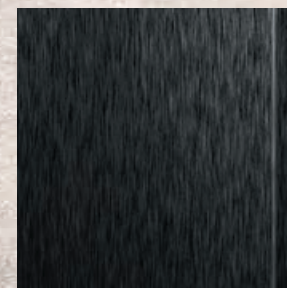

\*Not all models available at time of going to print.

# *Cook your way with our new range* **TOUCH SCREENS**

**Beautiful crystal clear graphics that  
are intuitive and responsive to touch.  
Available in 6.8", 4.1" and 3.7" sizes.**

Aligned to the collections we offer three Full Touch Intuitive screens in this range. N90 Full Touch 3 featuring the largest size - 6.8" - this is our most innovative interface as you can also pop on a Twist Pad Flex® to operate this appliance. Also within the N90 range is Full Touch 2 featuring a 4.1" screen and N70 with Full Touch 1 with a 3.7" screen - all offering the same crystal clear graphics and intuitive touch screen control.

*Intuitive.  
Simple.  
Flexible.*

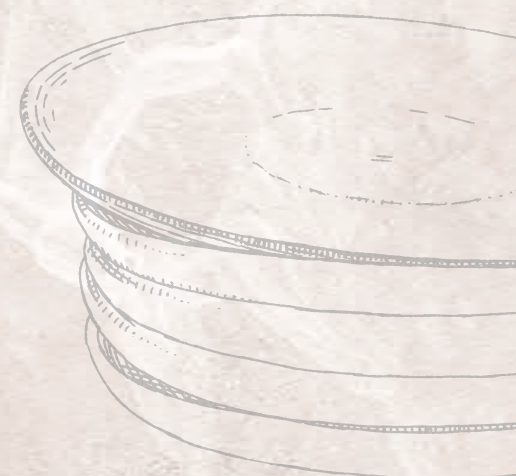

\*The NEFF Twist Pad Flex® is an optional additional accessory that needs to be purchased separately.  
Full details are in the specification tables.

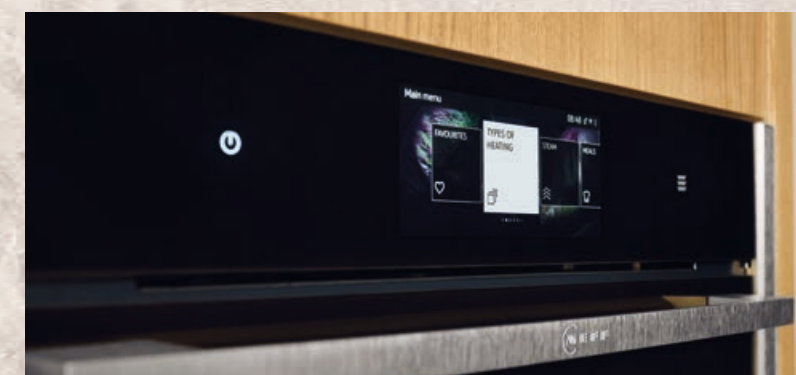

# Open for a personal TOUCH – OR A TWIST

## To twist or not to twist – the choice is yours!

With Flex Control on our N90 Full Touch 3 range you have the most choice on how you want to operate this appliance. Our largest screen has been developed to give you the option to Tap & Swipe or pop on a dial and show how adding a Twist Pad Flex® alters the control. \* Twist Pad Flex® sold separately.

Below is an illustration of how the addition of the Twist Pad Flex® alters the controls.

### Full Touch 3 – shown as Full Touch

Shown here in Full Touch mode – where by tapping or swiping the screen the functions and temperature are set.

### Full Touch 3 – shown with one Twist Pad Flex®

Shown here with one Twist Pad Flex®. This can be placed on the right or the left of the display. By adding the Twist Pad Flex®, you can control the appliance using the dial and touch to set the functions and temperature.

### Full Touch 3 – shown with two Twist Pad Flex®

Shown here with two Twist Pad Flex® on the display panel. By adding two Twist Pad Flex® the operating panel will change to Classic Mode and the functions and temperature will be set using the dial functionality of the Twist Pad Flex®.

# Get more with HOME CONNECT

## More time for your creativity and your guests.

Connections are important for NEFF and the connections that we make over food are our favourite ones. When we share a meal with family and friends, we share a connection around the table but sometimes we all need a little help. When you're in need of a little creative inspiration, having a partner in the kitchen can make those connections easier and stress free...

## Perfect Partners

With food, it's not always about the refined presentation – it's about the flavour, the joy and the pleasure those shared meals bring. Stay better connected with your guests with oven control and monitoring via smartphone, voice or smartwatch. No more dashing back and forth to the kitchen – enjoy the benefits of our technology partnerships for perfect cooking results every time!

## Looking for Inspiration?

Want to find a new way to cook something or have a lot of seasonal ingredients? Spend some time with our recipe partners on Home Connect and be inspired by others!

kitchen stories

ANYONE CAN COOK

## Got your hands full creating your next dish?

Achieving perfect results has never been easier with Oven Assistant – simply use the Home Connect app or ask Alexa to find the perfect setting for your dish.

## Sharing Favourites

We all have our favourite recipes, the ones that connect us, make us feel nostalgic and the ones that keep us at the table until the last morsel has been enjoyed. Let your oven in on the secret – share oven settings for your favourite recipe for quick, convenient access and it'll be ready to go whenever you feel inspired!

# NEFF

## *Open like no other*

### Cooking is an expression

It's about creating meals using ordinary ingredients but cooking them well - cooking them your way - adding a twist here and there and then sharing that meal. NEFF allows you to cook just how you want - with our range of ovens and technologies we allow you to be creative, be spontaneous, add a twist, a new flavour and remain open to try new things.

## *Perfect* ALIGNMENT

### At NEFF design is part of our DNA

This range of beautifully designed Fully Touch Screen ovens and compacts have been designed to combine together perfectly - either horizontally or vertically you can match the appliances in the various value classes perfectly for a beautiful aesthetic. Shown here in **N90 Full Touch 3**.

## *Open for* **YOUR TASTE**

### Slide & Hide® – The only oven with a disappearing door

Slide & Hide® is simply the first choice for individualists, who want to enjoy their passion for cooking without limitations.

Our iconic Slide & Hide® door effortlessly slides away beneath the oven when not in use. So nothing gets in the way of your creativity. Get up close and personal to season and stir your favourite dishes.

The Rotating Handle comfortably rotates with the movement of the door – so as you open the door the movement remains smooth.

### Circo Therm® – Hot air system for simultaneous cooking

Circo Therm® hot air technology focusses heat directly on the food being cooked, so surfaces of bakes and roasts are sealed quickly. This seals in moisture makes meats juicier and cakes delicious and moist.

Circo Therm® allows you to be the most creative cook you choose to be - show off bakes evenly cooked, inspiring powerful flavours that can all be cooked with more delicate dishes and each one tastes just as it should - and for those that want to use every inch of the oven when it's on, you can easily bake and roast meals for later in the week at the same time - being not only creative but energy efficient too.

# Ultimate FLAVOUR AND TEXTURE

Cooking with steam isn't just cooking with steam, its the temperature, volume and the precise moment it hits your food all play an important role in flavour and texture. This NEFF range has a variety of steam options to suit every cooking style.

*Cook bread, roasts, fish, vegetables, chicken dumplings, cakes, rice, tarts, tofu, duck and much MUCH more...*

## Vario Steam®

**Family feasts, cooked to perfection.**

Vario Steam® gives dishes just the right amount of moisture by adding steam at three intensity levels, meaning all your dishes retain their gorgeous colour and flavour. A low level is perfect if you're reheating a dish you've cooked earlier, and a higher level is great for baking bread.

## Intensive Steam

**Intensify flavours and preserve nutrients.**

Experience Intensive Steam with the new Intensive Steam feature with 120°C heat that retains your ingredients' nutrients and taste, for deliciously moist and flavoursome results. The fixed water tank makes operation and refilling a breeze\*.

## Sous Vide

**For an explosion of flavour.**

Discover new flavours and textures with Sous Vide. Vacuum sealing your favourite meats, fruits, fish or vegetables and then using the Sous Vide setting to steam them at low temperatures allows them to retain their most natural and intense flavours. From tender salmon to juicy corn on the cob, each dish remains a pure delight. And for a special touch, you can quickly sear meats before serving to give them a mouthwatering crust!

*Steam is great for cooking a variety of different dishes.*

Scan here to see a great range of recipes to inspire your cooking and take your dinner parties to the next level.

# Open for an EASY LIFE

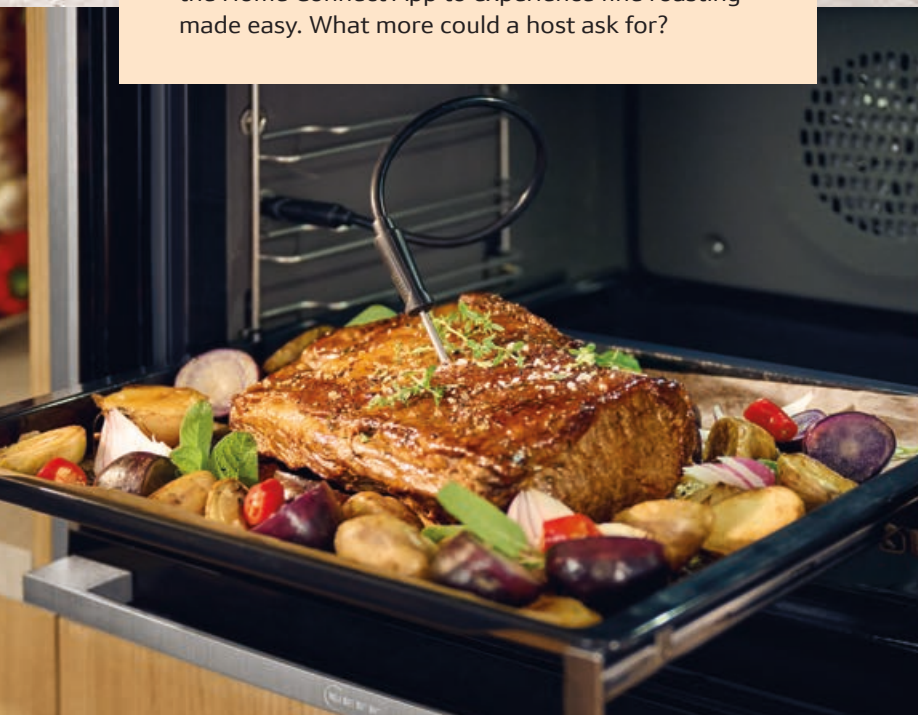

Stay focussed on your cooking and guests with these great helpful features.

NEFF is about enabling cooks to reach their full potential with no distractions – providing more time to focus on food and friends. Whether its not having to worry about cleaning or whether your roast is cooked, these features are designed to give you peace of mind.

## Multipoint Meatprobe

**For delicious roasts done how you like.**

We'll take care of roasting so you can take care of hosting. Prepare meat, poultry or fish as you like and let your oven and the Multipoint Meatprobe guide you to mouthwateringly juicy, tender results every time. Three measuring points on the probe keep tabs on your food, switching off your oven when the desired level of doneness has been reached, and artificial intelligence even lets you know when your meal will be ready! Simply connect your oven to your registered Home Connect account and select Meatprobe Assist in the Home Connect App to experience fine roasting made easy. What more could a host ask for?

## Pyrolytic Self-cleaning and Easy Clean

**The cleaning powers of heat and water.**

With a pyrolytic oven cleaning it is effortless – it does the hard work for you. You simply wipe away any remaining debris and wipe the door, set the pyro setting to run and the high temperature burns off any residual spatters in the oven leaving a small pile of ash to be wiped away so you can be your most creative cook in the kitchen knowing and creative spills will be cleaned away with minimal effort.

## Soft close

The oven door is fitted with a gentle damping system that opens softly and closes quietly.

# More room for YOUR IDEAS

Half the space, double the possibilities.

Our compact appliances are a stylish and practical way to extend your range of cooking options. Looking for extra cavity space without sacrificing kitchen storage? Want a Microwave oven that also cooks with steam? We've got a compact appliance to suit all your needs.

## Compact Steam Ovens

### Innovative steam assistance

Our Compact Full Steam Ovens combine all the heating modes of a full-featured oven with those of a steam-cooker, in one single appliance.

Ideal for Cookaholics who love to prepare fresh, seasonal produce, our Full Steam Compact Ovens are a significantly healthier way to cook. As well as retaining vitamin and mineral content in food, steam cooking preserves flavours.

## Compact Microwave Ovens

### Delicious results in rapid time

Invaluable in any Cookaholic's kitchen, our Compact Ovens feature an integral microwave designed to combine the traditional functions of an oven so you can cook your favourite dishes in a fraction of the time.

Offering the ultimate flexibility, food is cooked quickly and dishes which benefit from oven baking/roasting are left beautifully fluffy on the inside and crisp on the outside.

## Compact Ovens

### Seamless combination

Intended to complement our unique Slide&Hide® Oven range, our innovative 45cm Compact Ovens provide additional cavity space whilst offering a premium and seamless kitchen design. Use our Seamless Combination® mounting kits to create your very own stylish 'mix and match' appliance wall.

Designed to offer the ultimate flexibility, our compact appliances provide all of the innovative features you'd expect from a NEFF Single Oven. With CircoTherm® as a standard across all Compact Ovens, multiple dishes can be cooked simultaneously without any intermingling of flavours.

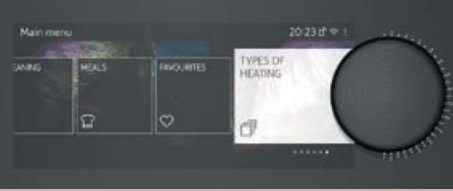

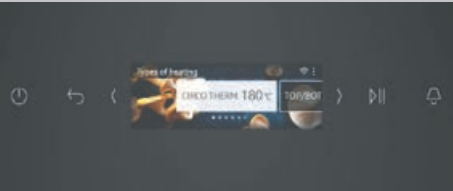

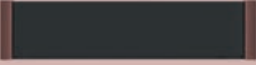

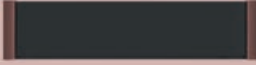

# Flex Design Oven Range

All single ovens have:

## Glass Draft Hoods Flex Design

### Seamless Hob Installation

Celebrate your kitchen design with visual unity. Our Glass Draft Hood has been designed to be installed seamlessly with any of our Flex Design hobs in the corresponding 90cm or 80cm width.

### Elevate your cooking experience.

Rising at the touch of a button, the Glass Draft Hood gets to work quietly and effectively. Thanks to Seamless Combination it perfectly integrates into the kitchen, installed directly behind the hob for a single surface look and clear glass panel when in use. Supported by Guided Air technology for effective extraction, and Automatic Air Sensor to optimise the power and noise levels as you cook.

## Open for fresh designs

Personalise your hob and hood with easily interchangeable Flex Design Trim, available in four distinctive colours, to coordinate with your oven, coffee machine and your Twist Pad Flex®.

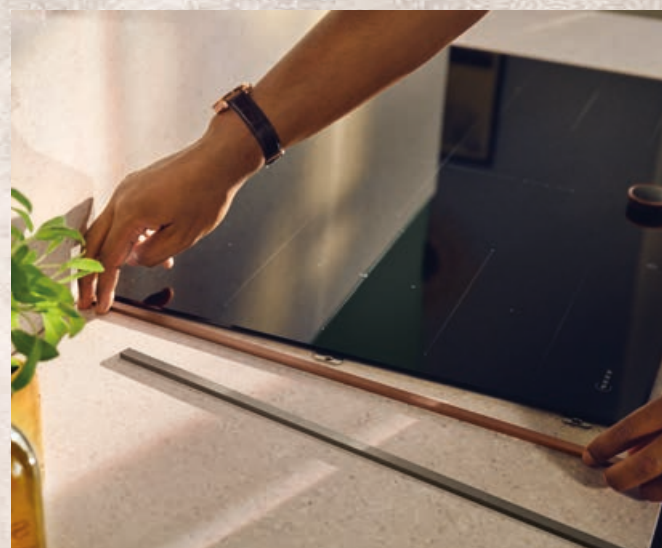

Brushed  
Bronze

Anthracite  
Grey

Metallic  
Silver

Deep Black

### Guided-Air Technology

Forget steamy kitchens even when using the front areas of the hob with Guided Air Technology, our new powerful extraction system for the Glass Draft Hood. Steam and odours are extracted from all corners of the hob with no limitations, no matter how ambitious your dish or how you choose to utilise the cooking surface.

### Ambient Light

The passionate cook's perfect must-have. Our Glass Panel with Illumination is unobtrusive so it will never divert attention from the peaceful view into your open plan kitchen or living area. Connect your Glass Draft Hood with the Home Connect app and choose from endless colours for the edge of your Glass Panel. Then treat yourself to a unique cooking experience every time with your choice of individual lighting.

## Hob Hood Control

**We love these moments that make us realise we are at home**  
Our Cooktop-based Hood Control is one of these homely details that create real cooking comfort. Address different steam levels as well as your hood's light via your hob. This allows you to keep your focus on the hob while you control the hood right where the steam originates. Simply connect your oven to your registered Home Connect account and select Meatprobe Assist in the Home Connect App to experience fine roasting made easy. What more could a host ask for?

## Frying Sensor

The Frying Sensor on the hob is essentially a temperature control setting similar to how you would set your oven temperature. The sensor automatically adjusts the heat to the pan to maintain an even temperature. This control allows you to cook all dishes to perfection as it maintains a consistent heat preventing overcooking or burning.

# Open to ANY KIND OF HEAT

## Flex Induction

**Make the most of your cooking surface.**  
Large pots, wide pans, roasting trays – sometimes you want to heat them all on your hob. That's why we came up with Flex Induction. Just place your cookware on the hob and let it detect the size and position, merging cooking zones to gain more depth. The heat is distributed only where needed.

## Intuitive Flex Zones

**Enjoy cooking - the hob supports you.**  
Place your cookware on the surface and start cooking: the hob immediately recognizes size, shape and position and connects or disconnects the Intuitive Flex Zones. All you need to do is decide on the power level. And should a pot or pan needs to be moved, all settings are transferred automatically to the new zone - thanks to Power Transfer. That's what we call the pure joy of cooking.

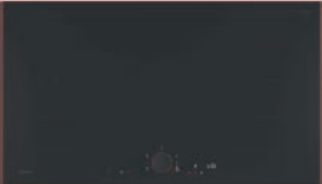

## Extended Flex Induction

**The hob that makes you more flexible.**  
Further inductors in the centre of the induction hob allow the Flexzone to be extended horizontally. You can also have roasting pans or a Teppanyaki grill placed transversely. This creates space for extra pots or pans.

# Flex Design Hobs and Hoods Ranges

# Open for a SPARKLE

**Our dishwashers are designed with cookaholics in mind.**

That means that even the most bubbled-over oven dishes, baked-on ramekins and caramelised grill pans will still come out beautifully clean. Offering functions to tackle the most stubborn stains and intelligent care programmes for your most delicate glassware, our dishwashers are perfect for all your everyday cooking and dining utensils.

## Vario Hinge

NEFF dishwashers with VarioHinge, are the perfect solution for installations with limited clearance between the bottom of the door and the plinth. VarioHinge allows the kitchen frontal to slide up the dishwasher door slightly as it lowers, clearing the plinth to give you a flush and sleek kitchen design.

## Door Open Assist

Flush surfaces are such a good look. Our dishwashers with Door Open Assist harmonise with your other sleek surfaces. A gentle push is enough to open the door slightly, and you can take it from there. You can even set up Home Connect and ask your smart speaker to open the door.

## Dishwashers Range

As this is a built in product there are no Flex Design kits to order.
